IMAGINE as a “Field of Association”

- Create context for information
 - Relate different information sources by association
books, newspapers, photos, museums, Web, ...
 - Associate obscure information with reliable info
authoritative sources, comprehensible sources
⇒ Cyberspace with depth and sense of security
- Discover one’s own context for information
 - Our memory is the network of words (context)
 - Context from our memory represents individuality
⇒ “Association” is comparable to “fingerprint”

The Future Reading Environment should be “the Field of Association”

- Create context for information
 - Relate different information sources by association books, newspapers, photos, museums, Web, ...
 - Associate obscure information with reliable authoritative sources, comprehensible sources
 - ⇒ Cyberspace with depth and sense of security
- Discover one’s own context for information
 - Our memory is the network of words (context)
 - Context from our memory represents individuality
 - ⇒ “Association” is comparable to “fingerprint”

PONGEE weaves associated knowledge

The screenshot shows a digital bird book interface. The main content area displays two pages from "THE BIRD BOOK" with illustrations of birds and eggs. The interface includes a sidebar with bird categories like "Pyrochlamys sticticus", "Shives", "Auklet", "Rhinoeros Auklet", and "Horned Puffin". On the right, there are taxonomic details for "Aethia cristatella", "Parakeet Auklet", and "Aethia pygmaea". The browser address bar shows "teothuacan.cs.nii.ac.jp/ereading/birdbookillustra00redrich/26".

The image shows a digital archive interface. On the left is a scanned page from a book titled "DIVING BIRDS". The page contains text and illustrations of birds and an egg. The text includes:

17. **Common Auklet**.—*Phalaropus lobatus*.
 Range.—The Alaska Coast, usually farther south in winter.
 This bird is about the same size as the preceding, and the plumage is similar, except that it has no white spot over the eye, and the breast is white. It also has a slender plume extending from back of the eye. The bill is very peculiar, being quite deep and rounded and having an upward tendency. It is orange red in color. They breed very commonly on the islands of the Bering Strait. Their eggs are laid in the crevices of the cliff, often several feet in and by a crooked path so that it is impossible to reach them. The single chalky white egg is laid in May. Size 2.38 x 1.45. Data.—Rocky Islet in the Aleutian. June 22, 1890. Single egg laid on bare rock in a deep crevice. Collector, Capt. S. Wilson.

18. **Crested Auklet**.—*Aethia cristatella*.
 Range.—Alaska Coast. Similar in form and plumage to the latter, except that the whole under parts are gray and it has a crest of recurved feathers. The nesting season begins in May, the birds nesting upon the same islands and in the same kinds of sites as the last species. The single egg is chalky white. Size 2.10 x 1.59. Data.—Unik Is., Alaska, July 1, 1906. Egg laid in a crevice among the rocks. Collector, J. Weston.

19. **Whiskered Auklet**.—*Aethia pygmaea*.
 Range.—The Alaska Coast.
 Much smaller than the preceding; but 7.5 in. in length. Breast gray, belly

On the right, a sidebar displays taxonomic information for three species:

- Aethia cristatella**
 Taxobox name = Crested Auklet
 Auklet status = LC
 status_system = IUCN3.1
 status_ref = Aethia cristatella
 image = Aethia cristatella.jpg
- Paroquet Auklet**
 Taxobox name = Parakeet Auklet
 Auklet status = LC
 status_system = IUCN3.1
 status_ref = Parakeetauklets2.jpg
 image = Parakeetauklets2.jpg
- Aethia pygmaea**
 Taxobox name = Whiskered Auklet
 Auklet status = LC
 status_system = IUCN3.1
 status_ref = Whiskered Auklet351.jpg
 image_width = 200px
 image = Whiskered Auklet351.jpg

At the bottom of the sidebar, there is a section for "Bering Strait" with a title "The Bering Strait" and a description in Russian: "(Берингов пролив, 'Beringov proliv'), known to natives as 'Imakpik', date=November 2009 is a sea strait between Cape Dezhnev, Chukotka Autonomous District, Russia, the easternmost tip of the Asian continent, and the westernmost tip of the North American continent, separating the Bering Sea from the Chukchi Sea."

Japan Search (Feb 2019)

<https://jpsearch.go.jp/>

The image shows the Japan Search website interface. At the top, it says "JAPAN SEARCH BETA". Below that is a "Gallery" section with several featured items:

- Fugaku sanjurokkei (The 36 Views of Mount Fuji)**: A major shōbu series depicting Mount Fuji by the late-Edo-period artist Hokusai Katsushika.
- Meisho Edo hyakkei (One Hundred Famous Views of Edo)**: A series of woodblock prints of famous views of Edo from the final years of Hiroshige Utagawa. One of the great prints was the first print.
- All kinds of Japanese confections**: Little-known historical facts about Japanese confections and the favorites of famous writers.
- The Three Shrines of Kumano (Kumano Sanzan)**: The three shrines of the Kumano region, Wakayama Prefecture, holy sites that have attracted worship from the original Shintō to present-day Shintō.
- Tadataka Ino**: A geographical surveyor of the Edo period who created the first map of Japan using surveying techniques.
- Board games featuring the people, places, and customs of the Edo era**: A Japanese board game illustrated with the people, places, and customs of old Edo.
- Mount Fuji**: Japan's highest mountain, known to Japanese since ancient times.

Below the gallery, it says "Find digital archives in Japan". There are two boxes showing the number of items available:

- ITEMS AVAILABLE FOR EDUCATIONAL OR COMMERCIAL USE: 436,321 works
- ITEMS THAT CAN BE ACCESSED VIA THE INTERNET: 1,028,327 works

At the bottom, there are several search options:

- Cross Search**: Search all databases with keywords.
- Japanese sword Search**: Search materials related in Japanese.
- Hokusai Works Search**: Search Hokusai's Nishiki-e works.
- Japanese Butterfly Search**: Search specimens of butterflies of Japan.
- Japanese Food Search**: Search materials related in Japanese.
- Books Printed by Juzairuro Tautaya Search**: Search a variety of materials.
- Nagasaki Search**: Search a variety of materials.
