PREFACE

- P1. The first edition of this standard was developed by the ICA Ad Hoc Commission on Descriptive Standards (ICA/DDS) during 1993-1995. The standard was published by the ICA in 1996. ICA/DDS became a permanent committee of the ICA International Congress on Archives in Beijing, China, in 1996. The current Committee on Descriptive Standards (ICA/CDS) undertook the revision of ISAAR (CPF) as its primary task in its work program for the 2000-2004 quadrennium.
- P2. This, the second edition of the ISAAR (CPF), is the result of a five-year revision process which was agreed upon by the ICA Committee on Descriptive Standards. The announcement to the international archival community for submitting comments for the revision was made late in 2000 in letters sent to all institutional and association members of the ICA, as well as to various relevant organizational units within ICA and to other cognate international organizations. The announcement was also posted via email to the ICA List and to other relevant email discussion lists. The deadline for comment was announced for 31 July 2001 with the aim of commencing the revision at the plenary meeting of the committee in Brussels on 3-6 October 2001.
- P3. By August 2001 the Secretariat of the ICA/CDS had received 18 submissions from national committees, organizations and individuals. The comments were compiled into a compendium, which was distributed to all members of the Committee in advance of the plenary meeting in Brussels.
- P4. The ICA/CDS plenary meeting in Brussels considered the comments submitted and made a number of decisions on revisions that should be made to the standard. Subsequently, a first draft of the revised ISAAR (CPF) was produced which reflected the decisions made in Brussels. This draft was circulated amongst members of the Committee and further refined at the plenary meetings of the committee in Madrid in June 2002 and Rio de Janeiro in November 2002. The draft was published on the ICA/CDS web site in January 2003. At this time comments on the proposed revised standard were solicited from the international archival community, with a deadline for comments given as 15 July 2003. These comments were considered at the plenary meeting of the Committee in Canberra, Australia in October 2003, at which time a final version of the revised standard was approved and subsequently presented in published form to the ICA Congress in Vienna in 2004.
- P5. This second edition of ISAAR (CPF) presents an expanded and restructured version of the first (1996) edition of the standard. The 1996 edition of the standard contained three areas, an Authority Control Area, an Information Area and a Notes Area. This edition contains four areas: an Identity Area (similar to the former Authority Control Area); a Description Area (similar to the former Information Area); a Relationships Area and a Control Area (similar to the former Notes Area). The latter two areas are essentially new additions to the standard, although there was some provision for documenting relationships in element 2.3.8 in the 1996 edition. Elements and rules within the four new areas have been structured and drafted with the aim of supporting clear understandings of concepts and better practices in the documentation of the context of archives. In addition, this edition contains a section describing how archival authority records can be linked to archival materials and other resources, including ISAD(G)-compliant archival descriptions. Comments received from the professional community during the review process indicated a need to provide greater clarity and enriched guidance than was provided in the 1996 edition. The Committee hopes that this new edition addresses most of the practical and conceptual concerns raised by practitioners who have attempted to build ISAAR (CPF)-compliant archival authority control systems. A mapping of elements of description between the first and second editions of the standard is presented in Appendix A.

The following are the members of the ICA Committee on Descriptive Standards who undertook the revision and served on the Committee during its 2000-2004 term.

Without their substantial contributions, both financial and in facilities and logistics for organizing the meetings, the revision of this standard would not have been possible.

1. SCOPE AND PURPOSE

- 1.1 This standard provides guidance for preparing archival authority records which provide descriptions of entities (corporate bodies, persons and families) associated with the creation and maintenance of archives.
- 1.2 Archival authority records may be used:
 - a. to describe a corporate body, person, or family as units within an archival descriptive system; and/or
 - b. to control the creation and use of access points in archival descriptions;
 - c. to document relationships between different records creators and between those entities and the records created by them and/or other resources about or by them.
- 1.3 Description of records creators is an essential activity of archivists, regardless of whether the descriptions are maintained in manual or automated systems. This requires full documentation and continuous maintenance of the context of records creation and use, most importantly the provenance of archives and records.
- 1.4 The companion standard to this document, ISAD(G): General International Standard Archival Description, provides for the inclusion of contextual information within the description of archives at any level. ISAD(G) also recognises the possibility of capturing and maintaining contextual information independently and linking that contextual information to the combination of other information elements used to describe archives and records.
- 1.5 There are many reasons why separate capture and maintenance of this type of contextual information is a vital component of archival description. The practice enables the linking of descriptions of records creators and contextual information to descriptions of records from the same creator(s) that may be held by more than one repository and to descriptions of other resources such as library and museum materials that relate to the entity in question. Such links improve records management practices and facilitate research.
- 1.6 Where a number of repositories hold records from a given source they can more easily share or link contextual information about this source if it has been maintained in a standardized manner. Such standardization is of particular international benefit when the sharing or linking of contextual information is likely to cross national boundaries. The multinational character of past and present record keeping creates the incentive for international standardization which will support the exchange of contextual information. For example, processes such as colonialization, immigration and trade have contributed to the multinational character of recordkeeping.
- 1.7 This standard is intended to support the sharing of archival authority records by promoting the preparation of consistent, appropriate and self-explanatory descriptions of corporate bodies, persons and families that create records. It is intended to be used in conjunction with existing national standards or as the basis for the development of national standards.
- 1.8 Archival authority records are similar to library authority records in as much as both forms of authority record need to support the creation of standardized access points in descriptions. The name of the creator of the unit of description is one of the most important of such access points. Access points may rely on the use of qualifiers that are deemed essential to clarify the identity of the entity thus named, so that accurate distinctions may be made between different entities that have the same or very similar names.
- 1.9 Archival authority records, however, need to support a much wider set of requirements than is the case with library authority records. These additional requirements are associated with the importance of documenting information about records creators and the context of records creation in archival description systems. As such, archival authority records go much further and usually will contain much more information than library authority records.

- 1.10 The primary purpose, therefore, of this standard is to provide general rules for the standardization of archival descriptions of records creators and the context of records creation, thus enabling:
- access to archives and records based on the provision of descriptions of the context of records creation that are linked to descriptions of the often diverse and physically dispersed records themselves;
 - understanding by users of the context underlying the creation and use of archives and records so that they can better interpret their meaning and significance;
 - precise identification of records creators incorporating descriptions of relationships between different entities, especially documentation of administrative change within corporate bodies or personal change of circumstances in individuals and families; and
 - the exchange of these descriptions between institutions, systems and/or networks.
- 1.11 An archival authority record that conforms to this standard may also serve to control the form of name and identity of a corporate body, person or family named in an access point that is related to the unit of archival description.

3. GLOSSARY OF TERMS AND DEFINITIONS

The following glossary forms an integral part of this standard. The terms are defined in the context of the rules.

Access point. A name, term, keyword, phrase or code that may be used to search, identify and locate archival descriptions, including authority records.

Archival description. The creation of an accurate representation of a unit of description and its component parts, if any, by capturing, analyzing, organizing and recording information that serves to identify, manage, locate and explain archival materials and the context and records systems which produced it.

This term also describes the products of the process.

Authority record. The authorized form of name combined with other information elements that identify and describe the named entity and may also point to other related authority records.

Corporate body. An organization or group of persons that is identified by a particular name and that acts, or may act, as an entity. Also includes an individual acting in a corporate capacity.

Creator. Any entity (corporate body, family or person) that created, accumulated and/or maintained records in the conduct of personal or corporate activity.

Provenance. The relationships between records and the organizations or individuals that created, accumulated and/or maintained and used them in the conduct of personal or corporate activity.

Qualifier. Information added to a descriptive element that assists identification, understanding and/or use of the authority record.

Record. Information in any form or medium, created or received and maintained by an organization or person in the transaction of business or the conduct of affairs.

4. STRUCTURE AND USE OF THE STANDARD

- 4.1 This standard determines the types of information that could be included in an archival authority record and provides guidance on how such records may be deployed in an archival descriptive system. The content of the information elements included in the authority record will be determined by the conventions and/or rules that the agency follows.
- 4.2 This standard consists of information elements, each of which contains:
- a. the name of the element of description;
 - b. a statement of purpose for the element of description;
 - c. a statement of the rule (or rules) applicable to the element; and
 - d. where applicable, examples illustrating implementation of the rule.
- 4.3 Paragraphs are numbered and are given for citation purposes only. These numbers should not be used to designate elements of description or to prescribe the order or structure of descriptive resources.
- 4.4 The elements of description for an archival authority record are organized into four information areas:
1. Identity Area
(where information is conveyed which uniquely identifies the entity being described and which defines standardized access points for the record)
 2. Description Area
(where relevant information is conveyed about the nature, context and activities of the entity being described)
 3. Relationships Area
(where relationships with other corporate bodies, persons and/or families are recorded and described)
 4. Control Area
(where the authority record is uniquely identified and information is recorded on how, when and by which agency the authority record was created and maintained).
- 4.5 This standard also provides in Chapter 6 guidelines for linking archival authority records to the descriptions of records created by the entity and/or other information resources about or by them. Chapter 6 also includes data models that illustrate the relationships between authority records that describe archival records creators and descriptions of the archives created by those entities.
- 4.6 Appendix A provides a mapping of the descriptive elements between the first edition of this standard and the current edition. Appendix B provides full examples of archival authority records compiled in accordance with this standard.
- 4.7 All the elements covered by these rules are available for use, but the following four elements are essential:
- Type of entity (element 5.1.1);
 - Authorized form(s) of name (element 5.1.2);
 - Dates of existence (element 5.2.1); and
 - Authority record identifier (element 5.4.1).
- 4.8 The nature of the entity being described and the requirements of the particular system or network within which the preparer of an archival authority record works will determine which of the optional elements of description are used in a given authority record and whether these elements are presented in a narrative and/or a structured format.
- 4.9 Many of the descriptive elements in an ISAAR(CPF) compliant authority record will be used as access points. Rules and conventions for standardizing access points may be developed nationally or separately for each language. Vocabularies and conventions to be used in creating or selecting the data content for these elements may also be developed nationally, or separately for each language. The following ISO standards are useful when developing and maintaining controlled vocabularies: ISO 5963 Documentation - Methods for examining documents, determining their subjects, and selecting indexing terms, ISO 2788 Documentation - Guidelines for the establishment and development of monolingual thesauri, ISO 5964 Documentation - Guidelines for the establishment and development of multilingual thesauri and ISO 999 Information and Documentation - Guidelines for the content, organization and presentation of indexes. In citing a published source in any element of description, it is suggested that agencies follow the latest version of ISO 690 Documentation - Bibliographic references - Content, form and structure.

- 4.10 Examples provided throughout the standard are illustrative and not prescriptive. They illuminate the provisions of the rules to which they are attached, rather than extend those provisions. Do not take the examples, or the form in which they are presented as instructions. To clarify the context, each example is followed by an indication in italic of the name of the agency that supplied the example. Further explanatory notes may follow, also in italic, preceded by the word Notes:. Do not confuse the indication of the source of the example and any notes with the example itself.
- 4.11 This standard is intended to be used in conjunction with ISAD(G) - General International Standard Archival Description, 2nd edition and with national archival descriptive standards. When these standards are used together within the context of an archival descriptive system or network, authority records will be linked to descriptions of archives, and vice versa. See Chapter 6 for guidance on how these links may be created. Descriptions of archives and records can be linked to archival authority records in the Name of creator(s) element (3.2.1) and the Administrative/Biographical history element (3.2.2) of an ISAD(G) compliant description.
- 4.12 This Standard is intended to be used in conjunction with national standards and conventions. For example, archivists may be guided by national standards when deciding which elements may or may not be repeatable. In many countries archival descriptive systems require a single Authorized form of name for a given entity, while in other countries it is permitted to create more than one Authorized form of name.
- 4.13 This standard addresses only part of the conditions needed to support the exchange of archival authority information. Successful automated exchange of archival authority information over computer networks is dependent upon the adoption of a suitable communication format by the repositories involved in the exchange. Encoded Archival Context (EAC) is one such communications format which supports the exchange of ISAAR(CPF) compliant archival authority data over the World Wide Web. EAC has been developed in the form of Document Type Definitions (DTDs) in XML (Extensible Markup Language) and SGML (Standard Generalized Markup Language).

5.1.4 Standardized forms of name according to other rules

Purpose:

To indicate standardized forms of name for the corporate body, person or family that have been constructed according to rules other than those used to construct the authorised form of name. This can facilitate the sharing of authority records between different professional communities.

Rule:

Record the standardized form of name for the entity being described in accordance with other conventions or rules. Specify the rules and/or if appropriate the name of the agency by which these standardized forms of name have been constructed.

Examples:

5.1.5 Other forms of name

Purpose:

To indicate any other name(s) for the corporate body, person or family not used elsewhere in the Identity Area².

Rule:

Record other names by which the entity may be known, such as:

- a) other forms of the same name, e.g. acronyms;
- b) other names of corporate bodies, for example, changes of name over time and their dates;³

¹ In certain cases, notably in countries that have more than one official language, the agency responsible for the authority record may establish one or more authorized forms of name which are recognised as having parallel or equal status. This situation occurs most commonly with the names of corporate bodies which have more than one language and/or script form sharing the status of an official name.

² In manual systems Other forms of name should be cross-referenced to the Authorized form of name by use of a SEE reference.

³ When, according to national rules and/or conventions, a name change is considered to constitute the creation of a new entity, record the relationship between the entities as a Temporal relationship in the Relationships Area (5.3).

- c) other names of persons or families, for example, changes of name over time with their dates including pseudonyms, maiden names, etc;
- d) names and prenominal and postnominal titles of persons and families, e.g. titles of nobility, or titles of honour held by the individual or family.

El Consejo de Órdenes fue establecido a raíz de la incorporación a la Corona de los maestrazgos de las órdenes militares castellanas (Santiago, Calatrava y Alcántara) (1487-1495). Su fecha de creación no está determinada con exactitud, aunque algunos autores la sitúan sobre 1498.

El Consejo de Órdenes, que en 1707 había asumido también la administración de Montesa, aunque no fue formalmente incluido en las reformas de la Administración del Antiguo Régimen de 1834 (RR.DD. de 24 de marzo de 1834, Decreto V), se transformó en 1836 en un nuevo organismo constitucional, el "Tribunal Especial de las Órdenes".

The York University Senior Common Room was established at Glendon Hall in 1963. This Senior Common Room became the Glendon College Common Room in 1966 when the Founders College Senior Common Room opened on the Keele Street campus in that year. This latter establishment was renamed the York University College Faculty Common Room in 1968 and, as new colleges were opened on the campus an umbrella body, the York University Senior Common Room Inc., was established to serve as a license holder and victuals contractor for the several SCR's. Membership in the Senior Common Room was restricted to academic and senior administrative staff, although honorary or special members could be adopted by the membership. The Senior Common Room Inc. was managed by a five-person Board of Directors who were all regular members of the SCR. The Senior Common Room Inc. was disbanded in 1976.

Originaire de Champagne, la famille Bérulle fut anoblie par charge en 1573, en la personne de Claude de Bérulle, conseiller au Parlement, marié à Louise Seguier. De cette union naquirent deux fils : Pierre et Jean de Bérulle. Pierre (1575-1629) fut l'auteur de l'établissement des Carmélites, le fondateur et le premier général des prêtres de l'Oratoire en France. Il fut promu cardinal, en 1627. C'est par la loi du 28 pluviôse an VIII (17 février 1800) que Napoléon Bonaparte crée la fonction préfectorale à la tête du département, circonscription administrative instituée le 22 décembre 1789 par la Constituante. En 1800, le préfet devient dans le département "le seul chargé de l'administration" (art. 3).

L'ordonnance du 6 novembre 1817 réduit le Conseil de préfecture de la Somme à 3 membres. Le décret du 28 mars 1852 le réduit de 5 à 4 membres, confirmé par la loi du 21 juin 1865. La loi du 6 septembre 1926 réforme l'organisation des conseils de préfecture, qu'elle supprime (intégration au conseil de préfecture interdépartemental de Rouen). Ces derniers sont, par décret du 30 septembre 1953, rebaptisés "tribunaux administratifs".

Également institué par la loi du 28 pluviôse an VIII, le poste de secrétaire général a subi bien des vicissitudes : supprimé en 1817, rétabli en 1820, supprimé à nouveau par ordonnance du 1er mai 1832, rétabli par décret du 289 décembre 1854 et définitivement rétabli en 1865.

5.2.7 Internal structures/Genealogy

Purpose:

To describe and/or represent the internal administrative structure(s) of a corporate body or the genealogy of a family.

Rules:

Describe the internal structure of a corporate body and the dates of any changes to that structure that are significant to the understanding of the way that corporate body conducted its affairs (e.g. by means of dated organization charts).

Describe the genealogy of a family (e.g. by means of a family tree) in a way that demonstrates the inter-relationships of its members with covering dates.⁴

Examples:

Hasta 1586 la organización interna del Consejo de Guerra fue mínima. Con el Rey como presidente, el Consejo estaba constituido por varios consejeros y un secretario, que lo era a su vez de otros consejos, ayudado por oficiales, escribientes y restante personal subalterno.

A partir de 1554 un auditor se encargaba de las materias judiciales y se amplía el número de consejeros, oscilando entre cinco y diez.

En 1586 la Secretaría del Consejo de Guerra se desdobra en Secretaría de Tierra y Secretaría de Mar. El mayor control de dos áreas conflictivas determinó la división en 1646 de la Secretaría de Tierra en dos: Secretaría de Tierra-Cataluña y Secretaría de Tierra-Extremadura.

Tras el advenimiento de la dinastía borbónica a principios del s.XVIII sufrió sucesivas reorganizaciones administrativas acorde con sus nuevas funciones. Las secretarías se unificaron en 1706.

En 1717 la planta del Consejo se redujo en cuanto a su número de consejeros, divididos en militares y togados, la presidencia recayó en el Secretario del Despacho de Guerra y la secretaría desaparece, tramitándose la actividad administrativa a través de la Escrínabía de Cámara. La nueva planta del año 1773 reserva, como tradicionalmente ocurrió, la presidencia a la persona del Rey, amplía a veinte el número de consejeros, diez natos y diez asistentes, divididos en sala de gobierno y justicia, y de nuevo restituye la figura del secretario. La plantilla se completa con dos fiscales, tres relatores, un escribano de cámara, abogado, agente fiscal, procurador, oficiales, escribientes, alguaciles y porteros. Esta estructura permaneció prácticamente estable hasta su supresión en 1834.

Sir Edward Noel (d 1643) married Julian, daughter and co-heir of Baptists Hicks (d 1629), Viscount Campden, and succeeded to the viscountcy of Campden and a portion of his father-in-law's estates. The third Viscount Campden (1612-82) married Hester Wotton, daughter of the second Baron Wotton. The fourth Viscount Campden (1641-89, created Earl of Gainsborough 1682) married Elizabeth Wriothesley, elder daughter of the fourth Earl of Southampton. Jane Noel (d 1811), sister of the fifth and sixth Earls of Gainsborough, married Gerard Anne Edwards of Welham Grove (Leicestershire) and had issue Gerard Noel Edwards (1759-1838). He married in 1780 Diana Middleton (1762-1823) *suo jure* Baroness Barham), daughter of Charles Middleton (1726-1813), created first Baronet of Barham Court (Kent) in 1781 and first Baron Barham in 1805. GN Edwards assumed the surname Noel in 1798 on inheriting the sixth Earl of Gainsborough's Rutland and Gloucestershire estates (though not the Earl's honours, which were extinguished); and he later inherited his father-in-law's baronetcy. His eldest son John Noel (1781-1866) succeeded to the estates of his mother and his father, to his mother's barony and his father's baronetcy, and was created Viscount Campden and Earl of Gainsborough in 1841.

6. RELATING CORPORATE BODIES, PERSONS AND FAMILIES TO ARCHIVAL MATERIALS AND OTHER RESOURCES

Archival authority records are created primarily to document the context of records creation. To make this documentation useful it is necessary to link the authority records to descriptions of records.

Archival authority records can also be linked to other relevant information resources. When such linkages are made it is important to describe the nature of the relationship, where known, between the corporate body, person or family and the linked resource. This Section provides guidance on how such linkages can be created in the context of an archival descriptive system. See Figure 1 for a pictorial representation of this.

Record relevant information as a free text narrative and/or as structured text as specified in the elements below and/or links to the resources.

6.1 Identifiers and titles of related resources

Purpose:

To identify uniquely the related resources and/or enable the linking of the authority record to a description of the related resources, where such descriptions exist.

Rule:

Provide the unique identifiers/reference codes and/or titles for the related resources. Where appropriate also provide the identifiers of any separate description of the related resource.

6.2 Types of related resources

Purpose:

To identify the type of related resource(s) being referenced.

Rule:

Identify the type of related resources, e.g. Archival materials (fonds, record series, etc), archival description, finding aid, monograph, journal article, web site, photograph, museum collection, documentary film, oral history recording.

6.3 Nature of relationships

Purpose:

To identify the nature of the relationships between the corporate body, person or family and the related resources.

Rule:

Describe the nature of the relationships between the corporate body, person or family and the related resource, e.g. creator, author, subject, custodian, copyright owner, controller, owner.

6.4 Dates of related resources and/or relationships

Purpose:

To provide any relevant dates for the related resources and/or the dates of the relationship between the corporate body, person or family and the related resources, and to indicate the significance of those dates.

Rule:

Provide any relevant dates for the related resources and/or the relationship between the corporate body, person or family and the related resource and describe the significance of those dates.

Examples provided are illustrative and not prescriptive. They illuminate possible applications or renderings of the rules. Do not take the examples, or the form in which they are presented here as instructions. The rules in this Standard specify the data inputs into an authority control record, not the output or presentation formats for that information, for which there are an infinite variety of possible approaches, all of which may be correct in accordance with the rules.

Please note that additional full examples of ISAAR-compliant authority records can be found on the ICA/CDS website at <http://www.hmc.gov.uk/icacds/icacds.htm>

5.2.4 Estatuto jurídico		Organismo de la Administración Central del Estado (1516 probable-1834)
5.2.5 Funciones, ocupaciones y actividades		<p>La finalidad del Consejo de Guerra fue la resolución de todos los asuntos relacionados con el ámbito militar. Simultáneamente tuvo competencias judiciales y gubernativas.</p> <p>Por las primeras entendía en todas las causas civiles y criminales en las que intervenía personal militar.</p> <p>Por las segundas resolvía cuestiones de levas y reclutamientos, nombramientos de jefes militares, aprovisionamiento, construcción de navíos, preparación de armadas, fabricación de armamento, sistemas defensivos, hospitales, ejércitos permanentes de la Península (guardias y milicias...).</p> <p>En el siglo XVIII con la creación de la Secretaría del Despacho Universal de la Guerra las atribuciones del Consejo quedaron reducidas a cuestiones contenciosas y judiciales, asuntos de protocolo e interpretación de ordenanzas y reglamentos militares.</p> <p>El ámbito territorial de actuación se limitó a la Península, Islas Baleares y Canarias así como norte de África.</p>

5.2.7 Estructura(s) interna(s)/Genealogía		<p>Hasta 1586 la organización interna del Consejo de Guerra fue mínima. Con el Rey como presidente, el Consejo estaba constituido por varios consejeros y un secretario, que lo era a su vez de otros consejos, ayudado por oficiales, escribientes y restante personal subalterno.</p> <p>A partir de 1554 un auditor se encargaba de las materias judiciales y se amplia el número de consejeros, oscilando entre cinco y diez.</p> <p>En 1586 la Secretaría del Consejo de Guerra se desdobló en Secretaría de Tierra y Secretaría de Mar. El mayor control de dos áreas conflictivas determinó la división en 1646 de la Secretaría de Tierra en dos: Secretaría de Tierra-Cataluña y Secretaría de Tierra-Extremadura.</p> <p>Tras el advenimiento de la dinastía borbónica a principios del siglo XVIII sufrió sucesivas reorganizaciones administrativas acorde con sus nuevas funciones. Las secretarías se unificaron en 1706.</p> <p>En 1717 la planta del Consejo se redujo en cuanto a su número de consejeros, divididos en militares y togados, la presidencia recayó en el Secretario del Despacho de Guerra y la secretaría desaparece, tramitándose la actividad administrativa a través de</p>

		la Escribanía de Cámara. La nueva planta del año 1773 reserva, como tradicionalmente ocurrió, la presidencia a la persona del Rey, amplia a veinte el número de consejeros, diez natos y diez asistentes, divididos en sala de gobierno y justicia, y de nuevo restituye la figura del secretario. La plantilla se completa con dos fiscales, tres relatores, un escribano de cámara, abogado, agente fiscal, procurador, oficiales, escribientes, alguaciles y porteros. Esta estructura permaneció prácticamente estable hasta su supresión en 1834.
5.2.8 Contexto general		La inexistencia en el Antiguo Régimen de un sistema reglado, sometido a una ley de procedimiento, dificulta la fijación exacta del periodo de vigencia del cuerpo normativo, que rara vez contempla este aspecto. Por ello, en el elemento 5.2.6 no se ha consignado el intervalo de fechas en que las fuentes de autoridad se aplican o están vigentes con plena eficacia legal.

A su vez, debido a las ideas independentistas, la Real Lotería fue cambiada de nombre varias veces. 	<i>Descripción narrativa</i>	La Real Hacienda se fundó en el siglo XV como parte de la estructura institucional del Virreinato de la Nueva España. Entre los ramos que la conformaban destacan los relacionados con los impuestos perpetuos. Otros ramos eran los que tenían un destino particular y piadoso como bulas, diezmos y otros ingresos como los impuestos al tabaco, naipes y azogue. De la existencia de estos ramos derivó el interés de la Real Hacienda por crear la lotería como una instancia independiente dedicada a realizar sorteos públicos para obtener recursos.

5.3.3 Description of relationship	Title	Plaintiff
	Narrative	In 1981, at a conference on indigenous land rights in Townsville, a decision was made to pursue a native land title claim for the people of the Murray Islands in the High Court of Australia. In 1982, Mabo and four other Islander plaintiffs instituted proceedings against the State of Queensland, claiming that their islands had been continuously inhabited and exclusively possessed by their people who lived in permanent settled communities. They acknowledged that the British Crown became sovereign of the islands upon annexation, but claimed continuous enjoyment of their land rights which had not been validly extinguished by the sovereign through the granting of freehold title or land leases to others. The Queensland Government attempted to defeat the claim with the passage of the <i>Queensland Coast Islands Declaratory Act</i> 1985. In 1988, the High Court ruled this Act contrary to the Commonwealth <i>Racial Discrimination Act</i> 1975. In May 1989, the High Court remitted the land claim to the Queensland Supreme Court for hearing and determination of all issues of fact. In November 1990, Justice
		Moynihan of the Supreme Court delivered the Court's determination of the issues of fact. The case was argued for four days before the High Court in May 1991. The final decision was handed down in favour of Mabo on 3 June 1992. This decision overturned the 204-year-old legal doctrine of <i>terra nullius</i> , which held that the lands of the Australian continent were 'practically unoccupied' at the time of the proclamation of British sovereignty.

5.2.1 Date di esistenza		1892 marzo 30 - 1960 novembre 29
	ISO 8601	1892/03/30-1960/11/29
5.2.2 Storia	<p>Nato a Fondo (Tn) nel 1892 si trasferisce giovanissimo con la famiglia a Rovereto (Tn) dove frequenta la Scuola reale Elisabetta ad indirizzo tecnico-artistico. Ritiratosi al quinto anno, nel 1908 tenta, senza successo, l'esame di ammissione all'Accademia di Belle Arti di Vienna. Nel 1910, dopo un breve tirocinio come garzone decoratore a Torino, lavora a Rovereto presso un marmista. Espone i suoi primi disegni e dipinti di matrice realistico-sociale e simbolista a Rovereto nel 1911 e nel 1913, anno in cui pubblica il libro <i>Spezzature. Impressioni - Segni - Ritmi</i>, raccolta di poesie, prose disegni. Nel dicembre dello stesso anno si reca a Roma, presto raggiunto dalla futura moglie Rosetta Amadori; frequenta la Galleria futurista di G. Sprovieri ed entra in contatto in particolare con G. Balla, F. Cangiullo e F. T. Marinetti. Attratto nell'orbita del gruppo futurista, partecipa, nella primavera del 1914, all' "Esposizione libera futurista internazionale" tenuta presso la Galleria. Rientrato a Rovereto, nel luglio dello stesso anno inaugura a Trento la mostra "Prima esposizione di pittura futurista nel Trentino", che interrompe precipitosamente a causa dello scoppio della guerra, riuscendo ad ottenere il permesso di ripiegare in Italia. Si arruola volontario nella fanteria italiana ottenendo dopo pochi mesi l'esonero. Tornato a Roma, viene ufficialmente ammesso nel gruppo degli artisti futuristi tra la fine del 1914 e gli inizi del 1915; nel marzo sottoscrive con Balla il manifesto <i>Ricostruzione futurista dell'universo</i>, che propone la fusione di tutte le arti e una maggiore relazione tra arte e vita. In linea con tali teorie, la sua produzione artistica spazia, fin da questi anni, dalla pittura, al disegno, al collage, alle composizioni plastiche, alle liriche "onomalinguistiche". Negli stessi anni è pure impegnato nella coreografia teatrale con lo spettacolo <i>Mimismagia</i> e riceve dall'impresario dei balletti russi, S. Diaghilev, la commissione per le scenografie e i costumi dei balletti - poi non realizzati - de <i>Le chant du rossignol</i> su musica di I. Strawinsky e de <i>Il Giardino zoologico</i> di F. Cangiullo, musicato da M. Ravel. In collaborazione con il poeta G. Clavel - per il quale illustra il libro <i>Un istituto per suicidi</i> - presenta a Roma nell'aprile del 1918 lo spettacolo di marionette, da lui ideato, <i>Balli plasici</i>, su musiche di G. F. Malipiero, Tyrwhitt, A. Casella e B. Bartok. Mentre continua la sua attività espositiva, nel giugno del 1919, rientra a Rovereto ed inaugura la "Casa d'Arte futurista Depero", bottega artigianale, attiva nel settore dell'arte applicata, che prevede la produzione di arazzi, tarsie, collages, cartelli pubblicitari, oggetti d'arte, d'arredamento e giocattoli. Negli anni 1921 - 1922 realizza l'allestimento interno del locale d'avanguardia "Cabaret del Diavolo" di Roma. Nel gennaio dell'anno successivo presenta al teatro Trianon di Milano il suo balletto meccanico <i>Anihccam del 3000</i>, con successive repliche in diverse città italiane.</p>	

		<p>Nel 1927 edita, in collaborazione con l'amico F. Azari, il libro <i>Depero futurista</i> - noto come "libro imbullonato" per via della singolare legatura - che presenta, con una originalissima veste tipografica, l'attività dell'autore dal 1913 al 1927 e la sua concezione culturale. Impegnato anche nel settore della grafica pubblicitaria, Depero lavora per prestigiose ditte tra cui Bianchi, Strega, Campari. Dal settembre del 1928 all'autunno del 1930 è a New York: oltre all'attività espositiva, si dedica all'allestimento di balletti teatrali e all'illustrazione pubblicitaria, con la realizzazione di copertine di riviste, come <i>Vogue</i> e <i>Vanity Fair</i>. Mantiene nel frattempo il contatto con i futuristi, sottoscrivendo il manifesto <i>L'aeroplittura futurista</i>. Rientrato in Italia, a suggerito del suo impegno nel campo della pubblicità, pubblica nel 1932 il "Manifesto dell'arte pubblicitaria futurista". Nel 1933 dirige da Rovereto la rivista <i>Dinamo futurista</i>, edita dal febbraio al giugno dello stesso anno. Nel 1934 pubblica il volume <i>Liriche radiofoniche</i>. Nella seconda metà degli anni Trenta Depero collabora con l'Ente nazionale delle industrie turistiche (E.N.I.T) alla realizzazione delle campagne pubblicitarie per propagandare le bellezze d'Italia nei paesi europei. Negli stessi anni si impegna attivamente all'interno del Dopolavoro artisti di Rovereto e per una decina di mesi è segretario del Sindacato interprovinciale della Confederazione fascista dei professionisti e artisti della Provincia di Trento (1936-1937). Sperimenta inoltre un materiale innovativo, il "buxus", con il quale realizza oggetti d'arredamento ed intarsi, ed elabora, negli stessi anni, il volume autocelebrativo <i>Fortunato Depero nelle opere e nella vita</i>, pubblicato nel 1940. Nel 1947, dopo la pubblicazione del volume in inglese <i>So I think – So I paint</i>, torna per due anni negli Stati Uniti (New York e New Milford), senza ottenere peraltro il successo sperato. Dal 1949 si stabilisce definitivamente a Rovereto. Continua la sua elaborazione teorica con il <i>Manifesto della pittura e plastica nucleare</i> (1949), mentre inizia - probabilmente in questi anni - l'opera minuziosa di rivisitazione della propria vita d'artista. Dal 1953 al 1956 realizza la decorazione e l'arredamento della sala del Consiglio provinciale a Trento. Nel 1959, un anno prima della morte avvenuta a Rovereto, inaugura nella stessa città, in collaborazione con l'Amministrazione comunale, la "Galleria – Museo Depero", primo esempio di museo futurista in Italia.</p> <p>Copiosa la sua attività espositiva, tra cui si segnala la partecipazione alla mostra collettiva d'avanguardia al Kursaal di Viareggio (1918); la personale alla Galleria Bragaglia di Roma e la partecipazione alla Grande esposizione nazionale futurista di Milano (1919); la personale "Depero e la sua Casa d'arte" tenuta a Milano alla Galleria Moretti e ripresentata a Roma alla Galleria Bragaglia (1921); la partecipazione alla I Mostra internazionale delle arti decorative di Monza (1923), all'Esposizione internazionale di arti decorative di Parigi, seguita dalla personale al Théâtre des Champs Elysées (1925); la partecipazione alla Prima mostra del Novecento italiano di Milano (1926), all'Esposizione di arte italiana presentata a New York, Chicago, Washington e Boston (1926), alla Biennale di Venezia (1926, 1932, 1950), alla Quadriennale di Roma (1931; 1955), alla Triennale di Milano (1932; 1950), alla mostra "Futurismo e pittura metafisica" al Kunsthäus di Zurigo (1950).</p>
5.2.3 Luoghi		Nato a Fondo, in Valle di Non (Tn), morto a Rovereto (Tn). Nel 1892, giovanissimo si trasferisce con la famiglia a Rovereto (Tn), dove risiede principalmente fino al 1913. Dalla fine del 1913 e per gli anni di guerra vive a Roma, ad eccezione del breve soggiorno a Capri nel 1917, ospite del poeta G. Clavel, e di quello a Viareggio nel 1918. Dal primo dopoguerra torna a risiedere principalmente in Trentino, pur spostandosi spesso per motivi professionali. Dal settembre del 1928 all'autunno del 1930 vive a New York. Durante gli anni del secondo conflitto mondiale si ritira a Serrada, luogo montano nei dintorni di Rovereto. Dal 1947 al 1949 torna negli U.S.A., dove risiede a New York e a New Milford nel Connecticut; al ritorno si stabilisce definitivamente a Rovereto fino alla morte (1960).
5.2.5 Funzioni, occupazioni e attività		Pittore, scenografo, grafico pubblicitario, designer, scrittore, poeta.
5.2.8 Contesto generale		Il Trentino dei primi decenni del XX secolo fa parte dell'Impero austro-ungarico e costituisce la propaggine meridionale della Contea principesca del Tirolo. L'Impero è caratterizzato, tra le altre cose, dalla multietnicità e da forti spinte autonomiste, contenute da una linea politica prevalentemente reazionaria e tradizionalista. Così come altri uomini di cultura, sudditi austriaci di lingua italiana, Depero è attratto da fermenti irredentisti e, in particolare, dall'ambiente artistico-culturale dell'avanguardia futurista italiana. Fin dai primi anni del secondo decennio del secolo, si lega al vivace gruppo dei primi futuristi, sposandone tutta la carica dirompente di rottura con la tradizione e con il passato. Nel primo dopoguerra,

		dopo l'annessione del Tirolo meridionale all'Italia, continua la sua adesione al futurismo. La sua base logistica torna ad essere Rovereto e il Trentino, con frequenti missioni fuori provincia per motivi professionali. Accetta il fascismo (è autore di <i>A passo romano. Lirismo fascista e guerriero programmatico e costruttivo</i> . Trento, 1943; aderisce alle associazioni locali di categoria degli artisti).
		Nei primi anni del secondo dopoguerra sconta l'automatica associazione futurismo-fascismo. A partire dai primi anni Cinquanta partecipa in prima persona al recupero e alla rivisitazione del futurismo, preoccupato di fornire una corretta lettura della sua opera e immagine storica.

Somenzi, con il quale è condirettore fino al 1935 della rivista d'architettura futurista <i>Sant'Elia</i> . La sua posizione professionale di funzionario del Servizio lavori e costruzioni della Direzione generale delle Ferrovie dello Stato permette agli artisti futuristi (Benedetta Marinetti, Fililia, Tato, Prampolini, Depero,...) di ottenere in questi anni incarichi di collaborazione alla decorazione di edifici postali e ferroviari. Il rapporto con Depero si concretizza professionalmente negli anni 1933-1934 con la realizzazione di tre vetrate per il Palazzo delle Poste e Telegrafi di Trento e con il progetto, poi non realizzato, di un mosaico per la Stazione ferroviaria di Reggio Emilia (1935). Se la convergenza di Mazzoni con il movimento futurista può dirsi conclusa con la fine degli anni Trenta, egli rivaluterà in tarda età questa militanza e il rapporto con F. Depero, donando, alla fine anni Settanta, il proprio archivio alla Galleria Museo Depero di Rovereto, ente voluto dall'artista trentino per la conservazione e valorizzazione della sua memoria.

5.1 IDENTITY AREA		
5.1.1 Type of entity		Family
5.1.2 Authorized form of name		Noel family, Earls of Gainsborough
5.1.5 Other forms of name		Noel family, Barons Noel Noel family, Barons Barham Noel family, Viscounts Campden Noel family, baronets, of Barham Court
5.2 DESCRIPTION AREA		
5.2.1 Dates of existence		12 th – 20 th century
5.2.2 History		<p>The Noel family was established in Staffordshire in the Middle Ages: Andrew Noel (d1563), third son of James Noel of Hidcote (Staffordshire) acquired property in Rutland and Leicestershire and founded the branch of the Noel family from which the Earls of Gainsborough descended. Estates in other counties (mainly Gloucestershire, Hampshire, Kent and Middlesex) were subsequently acquired through purchase, inheritance and marriage.</p> <p>The family's principal seat was Exton Hall (Rutland). After Exton Hall was severely damaged by fire in 1810 Barham Court near Maidstone (Kent) became the main residence until the sale of the Kent estate in 1845-6 but a new house at Exton was completed in the early 1850s. Campden House in Chipping Campden (Gloucestershire), inherited from Baptist Hicks, Viscount Campden (d 1629), was destroyed in the Civil War while Campden House (Kensington) was sold in 1708. The family of Gerard Noel Edwards, who inherited the Noel family estates in 1798 and took the surname Noel, had resided at Welham Grove in Welham (Leicestershire) but this was sold by 1840.</p> <p>Andrew Noel (d1563) acquired Old Dalby (Leicestershire, sold 1617) and Brooke (Rutland). His grandson Sir Edward Noel (d 1643) bought the former Harington family estate of Ridlington (Rutland) and was created Baron Noel in 1617. He married a co-heir of Baptist Hicks (Viscount Campden, d 1629), through whom came the property in Rutland (Exton and Whitwell), Gloucestershire (Chipping Camden), Middlesex (Hampstead, sold 1707) and Campden House (Kensington, sold 1708), and succeeded his father-in-law as second Viscount Campden. Valle Crucis (Denbighshire) was acquired through the marriage of the third Viscount Campden (1612-82) and Hester, daughter of the second Baron Wotton, but was sold in 1663 to Sir John Wynn, fifth Bt. The fourth Viscount Campden (1641-89, created Earl of Gainsborough 1682) married in 1661 Elizabeth Wriothesley, elder daughter of the fourth Earl of Southampton, through whom came the Titchfield (Hampshire) estate, but on the second Earl of Gainsborough's death in 1690 this estate passed to his daughters (who married respectively the first Duke of Portland and the second Duke of Beaufort). The Rutland and Gloucestershire estates, with the earldom of Gainsborough, however, were inherited by the second Earl's cousin Baptist Noel of North Luffenham and Cottesmore (both Rutland).</p> <p>Property at Walcot (Northamptonshire), Castle Bytham (Lincolnshire) and Kinnoulton (Nottinghamshire) was inherited by the sixth Earl of Gainsborough from a cousin, Thomas Noel of Walcot (d 1788). On the sixth Earl's death in 1798 his estates were divided, the Walcot properties passing to CH Neville, who took the name Noel, and the Rutland and Gloucestershire estates passing to Gerard Noel Edwards (1759-1838), later Sir GN Noel, second Bt, son of GA Edwards (d 1773) of Welham Grove (Leicestershire) by Jane Noel (d 1811), sister of the fifth and sixth Earls. GN Edwards had inherited from his father various properties in Leicestershire (Welham, etc), London and Middlesex (Islington, Kensington, etc), Kent (Dartford, etc) and Ireland, but these were all sold between 1805 and 1840. GN Edwards had married in 1780 Diana, daughter of Charles Middleton (1726-1813), first Baron Barham, who succeeded her father in the barony and the Barham Court estate near Maidstone (Kent). On her death in 1823 she was in turn succeeded in the Barham Court estate and peerage title by her son Charles Noel (d 1866), who inherited the Rutland (Exton, etc) and Gloucestershire (Chipping Campden) estates of his father in 1838 and was created Earl of Gainsborough in 1841. The remaining Kent property was, however, sold by 1845-46.</p>
5.2.3 Places		Estates in 1883: Rutland 15,076 acres, Gloucestershire 3,170 acres, Leicestershire 159 acres, Lincolnshire 89 acres, Warwickshire 68 acres, Northamptonshire 6 acres; total 18,568 acres worth £28,991 a year.

5.2.5 Functions, occupations and activities		Estate ownership; social, political and cultural role typical of the landed aristocracy in England. The first Viscount Campden amassed a large fortune in trade in London and purchased extensive estates, including Exton (Rutland) and Chipping Campden (Gloucestershire). The Barham Court (Kent) estate was the acquisition of the first Baron Barham, a successful admiral and naval administrator (First Lord of the Admiralty 1805).
5.2.7 Genealogy		Sir Edward Noel (d 1643) married Julian, daughter and co-heir of Baptists Hicks (d 1629), Viscount Campden, and succeeded to the viscountcy of Campden and a portion of his father-in-law's estates. The third Viscount Campden (1612-82) married Hester Wotton, daughter of the second Baron Wotton. The fourth Viscount Campden (1641-89, created Earl of Gainsborough 1682) married Elizabeth Wriothesley, elder daughter of the fourth Earl of Southampton. Jane Noel (d 1811), sister of the fifth and sixth Earls of Gainsborough, married Gerard Anne Edwards of Welham Grove (Leicestershire) and had issue Gerard Noel Edwards (1759-1838). He married in 1780 Diana Middleton (1762-1823) <i>suo jure</i> Baroness Barham), daughter of Charles Middleton (1726-1813), created first Baronet of Barham Court (Kent) in 1781 and first Baron Barham in 1805. GN Edwards assumed the surname Noel in 1798 on inheriting the sixth Earl of Gainsborough's Rutland and Gloucestershire estates (though not the Earl's honours, which were extinguished); and he later inherited his father-in-law's baronetcy. His eldest son John Noel (1781-1866) succeeded to the estates of his mother and his father, to his mother's barony and his father's baronetcy, and was created Viscount Campden and Earl of Gainsborough in 1841.

Example 11 – Family description**Language of description: French (France)**

5.1 ZONE D'IDENTIFICATION		
5.1.1 Type d'entité		Famille
5.1.2 Forme autorisée du nom		Dampierre, famille de (seigneurs de Biville-la-Baignarde, la Forest, Grainville, Millancourt, Montlandrin, Sainte-Agathe, Sain-Suplix et Sélincourt, puis marquis et comtes de Dampierre)
5.1.5 Autres formes du nom		Dampierre-Millancourt Dampierre de Millancourt Dampierre de Sainte-Agathe Dampierre de Sélincourt
5.1.6 Numéro d'immatriculation		Sans objet
5.2 ZONE DE LA DESCRIPTION		
5.2.1 Dates d'existence		XII ^e siècle à nos jours
5.2.2 Histoire		La famille de Dampierre, qui compte encore aujourd'hui des représentants, est issue d'une maison chevaleresque de ce nom, citée dès le XII ^e siècle en Haute-Normandie. Ses armes sont d' " argent à trois losanges de sable, 2 et 1 ". Elle a été maintenue dans sa noblesse à l'intendance de Picardie, le 21 mai 1667 et le 15 juin 1700, sur preuves remontant seulement à Adrien de Dampierre, seigneur de Sainte-Agathe d'Aiermont, marié en 1525 à Isabeau Bernard, dont la descendance a formé plusieurs rameaux.
5.2.3 Zones géographiques		Les premiers Dampierre, Elie et Guillaume, sont cités dans les grands rôles de l'Echiquier comme habitant le bailliage d'Arques en 1196. La branche dite de Sainte-Agathe, aujourd'hui éteinte, s'installa au XVII ^e siècle dans la paroisse d'Yzengrem en Ponthieu qui englobait la seigneurie de Millancourt qu'elle ajouta à son nom patronymique. Au XVIII ^e siècle, les Dampierre-Millancourt se fixèrent aux Antilles. Au XIX ^e siècle, les marquis de Dampierre se partagèrent entre leurs terres en Saintonge (Plassac), en Agenais (Sauveterre d'Astaffort) et en Anjou (le Chillon).
5.2.4 Statut juridique		Sans objet
5.2.5 Fonctions et activités		Au XV ^e siècle, Jourdain, seigneur de Dampierre et de Biville, panetier du roi, s'illustra dans la défense du château des Moulineaux (Hauts-de-Seine). Ses fils Hector et Guillaume furent respectivement maître d'hôtel de Louis XI et lieutenant général de Normandie. Au XVIII ^e siècle, Marc-Antoine, dit le marquis de Dampierre (1676-1756), fut gentilhomme des chasses et plaisir de Louis XV et composa de nombreuses fanfares de cor. Au XIX ^e siècle, Aymar, marquis de Dampierre (1787-1845), se posa comme champion des Bourbons après Waterloo et devint pair de France en 1827. Son fils, Elie, marquis de Dampierre (1813-1896) fut élu député des Landes en 1848, combattit la politique personnelle du prince Napoléon, et, après le coup d'Etat du 2 décembre, rentra dans la vie privée. Député des Landes à l'Assemblée nationale en 1871, il joua un rôle dans la préparation de la restauration monarchique de 1871-1872 et contribua à renverser Thiers en 1873. Chartiste, historien, le petit-fils d'Elie, Jacques, marquis de Dampierre (1874-1947), présida la Société d'information documentaire et le comité directeur de l'Agence française pour la normalisation. Il fut aussi conseiller général de Maine-et-Loire.
5.2.7 Organisation interne		Les jugements de maintenue de noblesse des XVII ^e et XVIII ^e siècles ne donnent la filiation des Dampierre qu'à partir d'Adrien de Dampierre, écuyer, seigneur de Sainte-Agathe, qui épousa en mai 1525 Isabeau Bernard. Adrien de Dampierre vivait encore quand son fils, Guillaume, épousa Claude de Cassaulx par contrat du 6 novembre 1555. Guillaume de Dampierre eut trois fils, Pierre, qui continua la descendance, Jean, qui fut l'auteur de la branche des seigneurs de Grainville, et Jacques, seigneur de Saint-Suplix dont la descendance s'éteignit dans la deuxième moitié du XVII ^e siècle. Pierre de Dampierre, écuyer, seigneur de Sainte-Agathe, fils ainé de Guillaume, épousa d'abord, en 1580, Marie Picquet, puis, en 1585, Marie de Loisel, héritière de la seigneurie de Millancourt en Ponthieu. Ses trois fils, Pierre II, né du premier lit, et Aymar et François, nés du second lit, furent les auteurs de trois grandes branches. Descendant de Pierre II de Dampierre, le marquis Elie de Dampierre (1813-1896) eut deux fils, Aymar et Eric. D'Aymar sont issus les marquis de Dampierre (branche ainée), d'Eric descendent les comtes de Dampierre (branche cadette).
